Objective

I am a motivated Computer Science graduated student seeking a **Java Spring Boot Internship** to apply backend development skills in building scalable web applications. I am eager to apply my technical knowledge in a professional environment, learn from experienced developers, and contribute to real-world projects. I am a quick learner, and passionate about improving my software development skills through continuous learning and practical experience.

Education

BE Computer Science

NAST College/ Pokhara University
2021-2025

Technical Skills

Programming Languages:

Java, JavaScript, C#, C++

Backend Development:

Spring Boot, Node.js, Express.js, REST API Development

Frontend Development:

Bootstrap, JavaScript, React

Database Technologies:

MySQL, MySQL Workbench, SQL Server

Tools & Technologies:

Git, GitHub, Postman, Eclipse, Visual Studio, VS Code

Projects

Grocery Delivery System

Technologies: Java, Spring Boot, Thymeleaf, MySQL

- Developed a web-based grocery delivery system for managing products and orders.
- Implemented CRUD operations for product and order management.
- Integrated MySQL database for storing product and customer data.

Student Management System

Technologies: Java, Spring Boot, Thymeleaf, MySQL

- Developed a web-based student management system for managing students.
- Implemented CRUD operations for student management.
- Integrated MySQL database for storing student data.

Tuition Center Management System (TCMS)

Technologies: C#, SQL Server

- Developed a desktop application for managing student records, courses, and fees.
 - Implemented database integration for efficient data management.
-

Strengths

- Strong understanding of Object-Oriented Programming (OOP)
 - Problem-solving and debugging skills
 - Quick learner and adaptable to new technologies
 - Good teamwork and communication skills
-

Interests

- Backend Development
 - Java & Spring Boot
 - Building scalable web applications
 - Learning new technologies
-
